COL (Customer's Own Leather)

Leather Manufacturer: _____ Leather Name: _____

Color: _____ Total sq. ft. being sent: _____ Number of hides being sent: _____

See chart on page 3 for pattern repeat chart.

COT (Customer's Own Trim)

SELECT ONE

Bouillion

Cord w/ flange

Gimp

Contrasting COM

Trim Manufacturer: _____ Trim Name: _____

Color: _____ Height (for Bouillion only): _____

Yardage sent: _____ To be applied to: _____

Note: Hand sewn trims may have an up-charge, please inquire.

Seaming Details

SELECT ONE

Plain Seam

Top Stitch

Double Top Stitch (Baseball)

SELECT ONE

Railroad

Off the Bolt

For fabrics with a pattern or nap, "Off the Bolt" is the industry standard and the fabric will be seamed appropriately. For solid fabrics without a nap, railroading might be preferred as it can result in fewer seams. *Please consult your showroom salesperson with any questions regarding your choice.*

Nail Trim (Upcharges may apply, please inquire)

Standard Nails - approximately 7/16" diameter

Antique Brass

French Natural

Polished Nickel

Pewter

Upcharges may vary. Nail samples are only representative. Some color variances can be expected.

Fabric Backing

Most mid-light weight fabrics require backing for look and durability, as do all chenille and silks for both upholstery and when being used on pillows. We will provide this service for you at our discretion, if preferred. The cost will be \$150 minimum up to 18 yards and \$8.00 for each additional yard and will be invoiced on the final balance. Should your fabric, upon inspection, require backing would you like us to provide this service?

YES

NO

(By selecting this service you can avoid production delays)

Upholstery details may vary from those on the showroom models. Jasper specifically disclaims responsibility for the tailoring qualities of COM/COL and is not responsible for flaws, misweaves, etc. in other supplier's products.

COM/COL/COT Identification Form

Fabric

All yardage requirements shown under an individual style number on the price list or the website are for plain 54" wide fabric. If your fabric is less than 54" wide and/or has a repeat, please use the COM chart below to compute additional yardage.

To use this chart, please add together the vertical and horizontal repeats and find the appropriate entry. For instance; if a fabric is 54" wide and has a vertical repeat of 18" and a horizontal repeat of 18" (35" total) then, per the chart, there will be an additional required COM amount of 25%.

For patterns with one repeating motif centered in the middle of the width of the fabric, the yardage shown for 36" width must be used.

Leather

Multiply the required fabric yardage by 17 to compute the leather (COL) requirements. This conversion assumes a full cow hide of approximately 50-55 square feet. Smaller hides, or half hides, may require a larger conversion amount. If this is the case, please contact your showroom salesperson with your COL information for an estimate of how much leather is required.

PATTERN REPEAT CHART

Fabric Width	Plain Fabric	3" - 14" Repeat	15" - 19" Repeat	20" - 27" Repeat	28" - 36" Repeat	37" - 45" Repeat	46" - 54" Repeat
54"	0%	10%	15%	20%	25%	30%	35%
52"	10%	20%	25%	30%	35%	40%	45%
50"	10%	20%	25%	30%	35%	40%	45%
48"	15%	25%	30%	35%	40%	45%	50%
45"	20%	30%	35%	40%	45%	50%	55%
36"	50%	60%	65%	70%	75%	80%	85%

PLEASE NOTE: This chart is intended as a guide only. It has proven to be accurate in the majority of COM yardage requirements. However, it is based on the normal layouts of most upholstery fabrics. If your pattern has an irregular layout, or if the pattern does not center on the half width (or the full width), then additional yardage will be required.

Jasper has used its best judgment to estimate the actual yardage requirements required to cover our furniture pieces. AS SUCH, THE ABOVE CHART MUST BE CONSIDERED AN ESTIMATE ONLY. JASPER WILL NOT BE RESPONSIBLE IF ADDITIONAL YARDAGE IS REQUIRED.
