**FABRIC / FINISHING DISCLAIMER**

**PROPERTIES**

- Inconsistencies in quality, surface appearance, and texture are inherent characteristics of certain natural fabrics and must not be considered defects. Therefore, variations in fabric color, finish and overall look may occur.
- Wash care instructions are at the client's discretion.
- All fabrics are draped and fitted differently. The fit depends on the cut, fabric and styling.
- All photographs are for representation purposes only. They are taken to resemble the original product as closely as possible ordered, but may have marginal color variations from the actual product.

**CUSTOMER RESPONSIBILITIES**

It is the customer's responsibility to:

- Properly care for and maintain the condition of the chosen fabric.
- Consider the construction, durability, natural drape and/or hang when choosing a fabric.
- Decide the appropriate application for each fabric.

**\*Jasper Furniture is not responsible for any damages following the transfer and delivery of the order.**

**VELVET**

Velvet will naturally shade lighter or darker depending on the lay of the pile. If a velvet pile is pushed in different directions, it can appear 'bruised,' showing irregular marks, especially noticeable on an unpatterned fabric. This can usually be removed by careful brushing or hoovering. However, some heavier marks may become permanent. More times than not, the pile will return back to its natural state, but there is no guarantee.

**LEATHER**

Leather is also a delicate material that should be thoughtfully cared for. Light or heavy scratches may appear when not maintained properly. It is at the customer's discretion on how to best care for the fabric.

## **FINISHINGS**

Due to the hand-applied nature of the finish and natural variation of the grain, all finishes may have a slight variance from the final product. Jasper *is not* responsible for any scratches and/or marks that may occur. For a “non-standard” wood species selection, please contact Customer Service/Production for a quote.
