

## ROBERT JAMES COLLECTION

finishes are created with full understanding of the material. White Oak, Walnut, and Iron are all gifts from nature. Our craftsmen honor each material with environmentally conscious finishes, artfully applied to enhance their unique organic beauty.

BRUNSWICK

FUENTES  
New

JAVA  
New

MOCHA

EBONIZED

### WALNUT

Walnut is an elegant hardwood with beautiful grain. Our Walnut finishes are subtly wirebrushed to produce an organic texture to the grain. This process leaves the soft grain low and the hard grain high and creates a scratch-resistant surface. All pieces are finished with a high-quality satin sheen top coat.

COBALT

MIDNIGHT

CARBON

### INTERIOR IRON AND STEEL

We love working with these materials. There's not much our ironsmiths can't do! Our iron and steel finishes represent organic colors and textures of natural patinas that occur over time.

Satin top coat

HAMMERED GUN METAL  
(upcharge)  
Satin top coat

HAMMERED GRANITE  
(upcharge)  
Satin top coat

### CAST STONE

Cast Stone finishes Siltstone, Noir and Quarry are cast with a subtle sand texture that emulates organic limestone. Quarry has more exposed sand and texture and is not suitable for dining and cocktail tabletops where heavy use and spills may occur. Chalk White finish is a smooth, plaster like flat white finish. All of our stone finishes get a high-quality sealer.
